Ladies and gentlemen,

I'm happy to be here and talk about my favourite animals — pandas.

Pandas are mainly from Sichuan, China. They eat bamboo for food. They look cute with black and white fur and black eyes. They are lazy but friendly. That's why many people like them.

Pandas are important as our national animals. They're a symbol of our country. When people say pandas, they often think of China.

However, they're in danger now. To save them, we mustn't cut down trees and we can plant more bamboo. Also, we can build more panda centres for them to live in so that people can take good care of them.

Would you like to join me and save the pandas? Let's start from now. Thanks for listening.

【实战演练】One possible version:

Dear Mr Principal,

I'm very excited to hear that our school plans to have a mini zoo. I'd like to recommend three animals.

First, I suggest giraffes. They are tall and can reach things in high trees. If our kites fly into the trees, giraffes can help us get them back.

Second, monkeys are a great choice. They are funny and often act like people. They will make us laugh and we can learn more about them by watching them.

Lastly, I recommend elephants. They are clever and can remember places and friends. They can also draw pictures. It will be fun and interesting to be with them.

I think these animals will make our zoo fun and interesting. I hope you consider my ideas!

Yours,

Li Xiang

- Dear Mia,
I know it can be difficult to follow many rules.
But rules can help you become a better person.

Why not follow the rules in a different way? You can listen to music when you make your bed. As for watching TV, you'd better do it after you finish your homework. You can also think about good sides. For example, you can hang out with your friends on weekends.

Rules tell us what we can and can't do. With rules, we can grow up better. Remember: No rules, no order.

Yours,

Dr Know

Dear schoolmates,

School rules are usually difficult to follow but we must know they are good for us.

First, we mustn't be late for school or class because it shows our respect for the teacher. Also, we must wear the school uniform. It's a symbol of our school. And it helps us pay more attention to study. What's more, we can't bring phones to school because we're here to study. If we bring phones here, we may easily get lost in playing. Lastly, we can't eat in class. If we do so, the classroom will be dirty. I know you may find it hard but rules help us to be better students.

Try your best to follow them.

Hello, everyone. I'm Li Qiang from China.
I usually play basketball to keep fit. I really like
this sport and I usually play it with my friends or
classmates at school. On weekends, I play with
my father or by myself. It's good exercise to
keep fit because I must run and jump when
playing. I feel tired but happy and relaxed each
time after playing. I think it's a wonderful sport.
I can not only keep fit but also build team spirit
because we must try to work well as a team.
How about you? How do you keep fit?

ping-pong too. He can play together with his
friends. He thinks exercising with others makes
it not so hard. How about me? My favourite
sport is jumping rope. I think it's easy and I can
work out just by myself. So ping-pong is the
most popular sport in our group. Maybe it's
because ping-pong is the national ball game and
gets many people's attention.

Dear Leo,

Thanks for your email. I'm happy to share
my eating habits with you.

I have three meals on time every day. For
breakfast, I have an egg and porridge. For lunch,
I often eat rice with meat like pork and
vegetables. As for dinner, my family often have
noodles with eggs and tomatoes.

However, I have some bad habits, too. I like
cold drinks and ice cream. I usually feel bad if I
have them after exercising. And I drink little
water. It may cause health problems. I think
when I want something cold, I can have some
fruit instead. Also, it's better to drink water
before I get thirsty.

All in all, healthy eating gives us a healthy
body and mind.

Yours,

Li hua

Dear Tom,

How is everything going? It's 8:00 p.m. now in China. My family are all at home. I'm writing to share our after-dinner activities with you. My brother Li Ming is doing his homework. He's in Grade 9 now and he's always busy. My grandparents are watching TV in the living room. It sounds like something funny because they're laughing happily. My parents are reading in their room. It's their favourite activity every night.

What are you doing, Tom? I'm looking forward to your reply.

Yours,
Li Hua

Dear teachers and schoolmates,

Good afternoon. This is School News at Noon.

The Sports Day is coming next week. Many students are practising hard on the playground now. Let's have a look. Here, some students are playing ping-pong. Some are practising high jump. Some are playing volleyball. They all look

so excited. What's that over there? Five boys are having a tug of war with another team. They are working as a team and showing us what team spirit is!

I'm so excited to see this and I'm looking forward to the Sports Day. We'll bring you more news then.

Hi, Peter. It's 10th February in China today.
Although it's winter now, it's warm here. The
temperature is around 20°C, so I'm just wearing
a T-shirt. It's sunny and a little windy. Many
visitors are having fun on the beach. Some
people are sunbathing with coconut water in
their hands. Some are riding a boat in the water.
But I think it's dangerous. Many kids are happily
picking up some seashells. Some girls are over
there taking photos with the sea behind.

Do you know where I am now?

Good evening from CCTV 4 in Beijing. It's 6:00 p.m., 7th May. It feels not like a spring evening but a little cold. There is a heavy rainstorm outside with strong wind. Now the temperature is only 16°C. Many people are rushing home after work now. But because of the rain, there is a heavy traffic jam on almost all streets. So you'd better choose public transportation and go home quickly. Remember, do not drive or you may spend a long time on the way or even get into danger.

Thanks for watching or listening.

A Day to Remember

Today, my class went on a school trip to the Science Museum. At 8:00 in the morning, we took the school bus there. Then we got straight to the exhibitions. We saw some spaceship models. They were amazing. We also learned about computers. My favourite is the AI robot exhibition. Many of the robots were new to me. My classmates and I were excited and amazed to see all the scientific and technological products. We all thought about coming again. This trip made me realize that science gives us a better life and will give us a better future. It was a nice day to remember.

Saturday, May 18th

I had a memorable day today. It was raining heavily. In the evening, on my way to the supermarket, I saw an old woman sitting on the ground with her umbrella next to her. I wanted to help her but I was afraid that she would ask me to pay her money. Just then, another boy ran to her and helped her stand up. She said thanks to the boy. My face turned red at that moment. "I should help her," I thought. Then I offered to send her home with the boy. I learn that helping others is always right. Nothing else is more important. So don't be afraid to offer help.

Hello, everyone! I'd like to share the story of Yu Gong Moves the Mountains.

Once upon a time, there was an old man called Yu Gong. There were two mountains near his house. They were so big and high that it took a long way to walk to the other side. Yu Gong and his family decided to move the mountains to the sea. They worked hard to dig and move the earth and stones. One day, an old man saw Yu Gong moving the mountains. He told Yu Gong that he could never do it because he was too old. Yu Gong said that his family would go on moving the mountains after he died. His family would grow and live forever. The old man went away. Yu Gong and his family kept on digging day after day. Finally, a god was so moved by Yu Gong that he sent two gods to take the mountains away.

From this story, I learn that when we really want to do something, we need to work hard on it.

Thanks for your listening.

I'd like to share a book called Robinson Crusoe.

A man named Robinson Crusoe had a dream of travelling around the world. Once he went travelling on the sea. Unluckily, he met a storm and his ship was broken. He swam to a lonely island. There, he realized he was going to live alone with only a few things he brought from the ship. But he never gave up and tried to

grow food himself. Months of island life taught him some living skills and he began to accept the situation. Years later, he saved "Friday" and treated him as a friend. After almost thirty years, he left the island.

Robinson was kind and brave in the face of difficult life. He teaches me not to give up as long as I'm alive.
